ANTI-CUT PROTECTION

We added para-aramid synthetic fibers only where it is needed. Fiber is always knitted outside to maximize protection with a smooth feeling against the skin. Para-aramid synthetic fiber has a high tensile strength-to-weight ratio; by this measure it is 5 times stronger than steel!

Aramid fibers share some general characteristics that distinguish them from other synthetic fibers:

- High strength
- Good resistance to abrasion
- Non-conductive
- Good fabric integrity at elevated temperatures

These unique characteristics derive from the combination of having stiff polymer molecules with a strong crystal orientation, as well as a close interaction between the polymer chains due to the hydrogen bonds.

TOEEZ BRACER Anti-cut Arm Protection

Product code T6788

Description

Toeze bracer Anti-cut is made to protect wrist and arms from skate cuts during the game. The elastic structure keeps it well in place.

Enforced anti-cut structure also absorbs moisture and sweat as it travels down towards your hands and gloves.

Features & Benefits

- Gripped structure - Gives good support and stays in place
- Anti-cut material - Protects from skate cuts
- Fitting structure - Flexible and firm knitting keeps the bracer well in place

Bracer sizes & length

JR : 13 cm
S/M : 11 cm
L/XL: 13 cm

Materials

- 76 % Twaron, anti-cut
- 22 % Polyamide
- 2 % Lycra

Pair weight

20 grams
